1. Acting on a report that it had been impossible to receive broadcast at the [redacted] relay point the Russian-language portion of VOUSA's Far Eastern Service (1100-1150 GMT) because of heavy interference on its frequencies, although the interference was not perceptible in Hawaii, tests were made of VOUSA reception in [redacted] on 27 and 28 January 1948. 25X1A6a 25X1A6a

2. It was found that at this hour at least four of the transmitters beaming VOUSA to the Far East, as well as the frequencies of the [redacted] relay transmitter, were completely blocked with a very strong hash fifteen to forty kilocycles wide, with individual variations in types of interference. This interference was intermittent for fourteen minutes preceding the beginning of the Russian-language transmission and continuous during the Russian period. It was discontinued three minutes after the end of the Russian period. 25X1A6a
